Web developer with a background in Engineering interested in building effective and responsive applications. Recently earned a certificate from UT Austin Boot camp in full stack web development. Skilled in JavaScript, React.js, Express, responsive web design, and databases such as MySQL and MongoDB. Known as a problem solver, hard worker, and results oriented, I enjoy collaborating as part of a team. My last collaboration was with a group of four to create a single page MERN app, where I was responsible for the front-end using React.js. I am excited to leverage my skills as part of a fast-paced, quality-driven team to build better experiences on the web.

TECHNICAL SKILLS

Languages: JavaScript ES6+, CSS3, HTML5, SQL, NoSQL
Applications: GitHub, MongoDB, MySQL
Tools: Express, React, Node, Handlebars, Query, Bootstrap
